

**MGT 315-  
Enhanced Threat and Risk Assessment  
(ETRA)  
(Local Jurisdiction)**

**Course Description**

This course extends beyond the process taught in MGT-310, Threat and Risk Assessment and provides the jurisdiction with skills to develop an action plan to reduce or mitigate identified vulnerabilities of critical infrastructure, facilities, systems, and special events sites. There is a strong emphasis on security engineering concepts, building systems, and security systems. The course delivery methodology consists of lectures, small group discussions, multimedia scenarios, and inspections of facilities and infrastructures selected by the jurisdiction. Participant learning occurs in multidisciplinary teams.

# Homeland Security

**MGT 310-WMD  
Threat and Risk Assessment  
(T&RA)  
(Local Jurisdiction)**

**Course Description**

This course prepares emergency responder managers and community leaders to conduct a comprehensive, capabilities-based threat and risk assessment for a weapons of mass destruction (WMD)/terrorism/all-hazards incidents under the National Response Plan (NRP) and Presidential Directives. Participant activities focus on the jurisdictional process for determining ability to respond to chemical, biological, radiological, nuclear, and explosive (CBRNE)/all-hazard events and the development of the needs assessment to fill gaps identified within the solution areas. The assessment incorporates the State Homeland Security and Strategy (SHSAS) processes. The course delivery combines lecture, small group discussions, participant activities, and multimedia scenarios to improve the multidisciplinary emergency team's capability to prevent, react to, or recover from CBRNE/all-hazard, mass casualty events.

**MGT 312-Senior Officials Workshop  
for All-Hazards Preparedness**

**Course Description**

This workshop is for local jurisdiction elected and appointed senior officials. Its purpose is to provide a forum to discuss strategic and executive-level issues related to disaster preparedness, share proven strategies and best practices, and enhance coordination among officials responsible for emergency response to a disaster. Participants receive an Executive Handbook outlining the emergency management framework (protection, preparedness, response, and recovery phases), as well as other key senior level issues and discussions topics.

**MGT 313-Incident Management /  
Unified Command (IM/UC) for  
CBRNE and Terrorism Incident**

**Course Description**

The course trains emergency response supervisors and managers in the skills necessary to effectively plan for and manage a weapons of mass destruction (WMD) (chemical, biological, radiological, nuclear, and explosive [CBRNE])/terrorism incident by applying the "all-hazards" command and management structures found in the National Incident Management System (NIMS); with emphasis on the Incident Command System (ICS), multi-agency coordination systems, and public information systems. The course uses a multidiscipline jurisdictional team-building approach to accomplish the learning objectives. Upon course completion, participants possess a working knowledge of local, State, and Federal agency roles and responsibilities and their integration into a unified command for managing terrorism and CBRNE incidents, as well as other incidents of national significance, such as hurricanes or mass casualty incidents. The course delivery methodology consists of lectures, small group discussions, participant activities, multimedia scenarios, and a concluding tabletop exercise.
